

PART 1: BACKGROUND

- 1 Introduction

PART 2: VIRAL DISEASES

- 2 Orf and milker's nodules
- 3 Dengue
- 4 Hydroa vacciniforme and hydroa-like lymphomas
- 5 Infective dermatitis: a cutaneous manifestation of HTLV-1 infection

PART 3: BACTERIAL AND RICKETTSIAL INFECTIONS

- 6 Rhinoscleroma
- 7 Endemic treponematoses
- 8 Carrion's disease
- 9 Plague
- 10 Cutaneous anthrax
- 11 Bacterial mycetomas: actinomycosis, botryomycosis, and nocardiosis
- 12 Rickettsiosis
- 13 Granuloma inguinale
- 14 Pitted keratolysis
- 15 Erythrasma
- 16 Tularemia
- 17 Tropical ulcer

PART 4: MYCOBACTERIAL INFECTIONS

- 18 Leprosy
- 19 Cutaneous tuberculosis
- 20 Buruli ulcer
- 21 Nontuberculous mycobacterial skin infections

PART 5: MYCOTIC INFECTIONS

- 22 Eumycotic mycetomas
- 23 Lobomycosis
- 24 Chromoblastomycosis
- 25 Tinea nigra
- 26 Phaeohyphomycosis
- 27 Sporotrichosis
- 28 Alternariosis
- 29 Hyalohyphomycoses
- 30 Zygomycosis
- 31 Paracoccidioidomycosis
- 32 Histoplasmosis
- 33 Rhinosporidiosis
- 34 Cryptococcosis
- 35 North American blastomycosis

PART 6: ARTHROPOD-INDUCED DISEASES

- 36 Venomous arthropods
- 37 Myiasis
- 38 Tungiasis

PART 7: PROTOZOAL INFECTIONS

- 39 Cutaneous leishmaniasis
- 40 Diseases caused by ameba
- 41 Chagas' disease

PART 8: ALGAE INFECTIONS

- 42 Protothecosis

PART 9: HELMINTH INFESATIONS

- 43 Schistosomiasis
- 44 Cutaneous larva migrans
- 45 Gnathostomiasis
- 46 Cysticercosis
- 47 Sparganosis
- 48 Echinococcosis
- 49 Human filariasis
