

SECTION 1: Thyroid Surgery

1. Surgeon-Performed Ultrasound for Thyroid Nodules
2. Thyroidectomy
3. Thyroidectomy for Substernal Goiter
4. Thyroidectomy for Locally Advanced Cancer
5. Reoperative Thyroidectomy
6. Central Node Dissection for Thyroid Cancer
7. Lateral Neck Dissection for Thyroid Cancer
8. Robotic Thyroidectomy and Robotic Neck Dissection
9. Laryngeal Function and Intraoperative Laryngeal Nerve Monitoring
10. Molecular Diagnostic Testing of Thyroid Nodules

SECTION 2: Parathyroid Surgery

11. Intraoperative Parathyroid Hormone Monitoring
12. Bilateral Exploration for Hyperparathyroidism
13. Minimally Invasive Parathyroid Surgery
14. Minimally Invasive Video-Assisted Parathyroidectomy
15. Reoperative Parathyroid Surgery
16. Surgery for Secondary/Tertiary Hyperparathyroidism
17. Parathyroid Autotransplantation and Cryopreservation
18. Surgery for MEN-1 Hyperparathyroidism

SECTION 3: Adrenal Surgery

19. Laparoscopic Adrenalectomy
20. Endoscopic Retroperitoneal Adrenalectomy
21. Open Adrenalectomy
22. Perioperative Management of Functional Adrenal Tumors
23. Adrenal Metastasectomy
24. Paragangliomas

SECTION 4: Surgery for Pancreatic and Carcinoid Tumors

25. Resection of Duodenal Gastrinoma
26. Open Management of Pancreatic Neuroendocrine Tumors
27. Laparoscopic Management of Pancreatic Neuroendocrine Tumors
28. Resection of Small Intestinal Neuroendocrine Tumors
29. Hepatic Metastasectomy for Neuroendocrine Tumors
