

## **Part I: General**

- General Principles
  - Principles of Clinical Practice
  - General Principles of Surgery

## **Part II: Obstetrics**

- Antenatal Period
  - Routine Antenatal Care
  - Biochemical and Ultrasound Screening for Foetal Anomalies
  - Invasive Prenatal Diagnosis
  - Tests for Foetal Well-being
- Medical Disorders during Pregnancy
  - Hypertensive Disorders during Pregnancy
  - Cardiac Disease in Pregnancy
  - Thyroid Disorders during Pregnancy
  - Connective Tissue Disorders (Autoimmune Disorders)
  - Respiratory Diseases in Pregnancy
  - Epilepsy and Other Neurological Disorders
  - Hepatic and Gastrointestinal Diseases
  - Anaemia and Other Haematological Abnormalities
  - Diabetes Mellitus and Gestational Diabetes
  - Abdominal Pain during Pregnancy
  - Malignancy during Pregnancy
  - Dermatological Disorders during Pregnancy
  - Renal Disease during Pregnancy
  - Infection during Pregnancy
  - Smoking during Pregnancy
  - Alcohol and Drug Usage during Pregnancy
- Complications Specific to Pregnancy
  - Multifoetal Gestation
  - Preterm Labour and Premature Rupture of Membranes
  - Antepartum Haemorrhage
  - Rhesus Isoimmunisation
  - Abnormal Presentation
  - Intrauterine Death
  - Recurrent Miscarriage
  - Pregnancy after Previous Caesarean Delivery
  - Post-term Pregnancy (Prolonged pregnancy)
  - Liquor Abnormalities
  - Maternal Mortality
  - Medications during Pregnancy
- Complications in the Early Pregnancy
  - Ectopic Pregnancy
  - Spontaneous Miscarriage
  - Gestational Trophoblastic Neoplasia
- Foetal Complications (Diagnosis and Management)
  - Foetal Growth Restriction
  - Foetal Infection
  - Non-immune Foetal Hydrops
  - Foetal Anomalies and Their Management
- Intrapartum Period

- Normal and Abnormal Progress of Labour
- Induction of Labour
- Anaesthesia and Analgesia in Labour
- Delivery and its Complications
  - Caesarean Delivery
  - Instrumental Vaginal Delivery
  - Shoulder Dystocia
  - Perineal Injuries
  - Antepartum and Intrapartum Foetal Asphyxia
- Postpartum Period
  - Postpartum Haemorrhage and Postpartum Collapse
  - Puerperal Pyrexia
  - Psychiatric Disorders in the Puerperium (Mood Disturbances)
  - Problems with Breastfeeding
- The Newborn Infant
  - Asphyxia Neonatorum
  - Care of a Newborn Child and Perinatal Mortality

### **Part III: Gynaecology**

- General Gynaecology
  - Normal and Abnormal Embryological Development
  - Karyotypic Abnormalities
  - Menstrual Cycle
  - Adolescent and Paediatric Gynaecology
  - Menopause and Hormone Replacement Therapy
  - Injuries of the Female Genital Tract and Female Genital Mutilation
  - Child Abuse, Sexual Assault and Rape
  - Dyspareunia and Other Psychosexual Problems
- Abnormalities of menstruation
  - Abnormal Uterine Bleeding
  - Uterine Leiomyoma
  - Dysmenorrhoea and Pelvic pain
  - Premenstrual Syndrome
  - Chronic Pelvic Pain and Endometriosis
  - Adenomyosis
- Reproductive Medicine
  - Normal Conception
  - Primary and Secondary Amenorrhoea
  - Male Infertility
  - Female Infertility
  - Polycystic Ovarian Disease
  - Hirsutism
  - Assisted Reproductive Techniques
  - Primary Ovarian Insufficiency
  - Fertility Preservation
  - Unexplained Infertility
- Urogynaecological and Pelvic Floor Abnormalities
  - Urogenital Prolapse
  - Urinary Incontinence
  - Urinary Tract Infections
- Gynaecological Oncology

- Endometrial Cancer
- Ovarian Neoplasia (Benign and Malignant)
- Cervical Intraepithelial Neoplasia
- Invasive Cervical Cancer
- Rare Cancers of the Female Genital Organs
- Vulvar Cancer and Vulval Pain Syndromes
- Gynaecological Infections
  - Sexually Transmitted Infections
  - Vaginal Discharge
  - Pelvic Inflammatory Disease
- Pregnancy Prevention
  - Contraception (Temporary and Permanent)
  - Medical Termination of Pregnancy
