

Section I: Epithelial intercellular staining pattern

- Chapter 1 Pemphigus vulgaris
- Chapter 2 Pemphigus vegetans
- Chapter 3 Pemphigus foliaceus
- Chapter 4 Pemphigus herpetiformis
- Chapter 5 IgA pemphigus
- Chapter 6 IgG/IgA pemphigus

Section II: Epithelial nuclear staining pattern

- Chapter 7 Connective tissue diseases
- Chapter 8 Chronic ulcerative stomatitis

Section III: Epithelial intercellular and basement membrane zone staining pattern

- Chapter 9 Paraneoplastic pemphigus
- Chapter 10 Pemphigus erythematosus

Section IV: Linear basement membrane zone staining pattern

- Chapter 11 Bullous pemphigoid
- Chapter 12 Mucous membrane pemphigoid (cicatricial pemphigoid)
- Chapter 13 Epidermolysis bullosa acquisita
- Chapter 14 Bullous lupus erythematosus
- Chapter 15 Linear IgA bullous dermatosis
- Chapter 16 Pemphigoid gestationis (herpes gestationis)
- Chapter 17 Lichen planus pemphigoides
- Chapter 18 Anti-p200 pemphigoid

Section V: Granular basement membrane zone staining pattern

- Chapter 19 Dermatitis herpetiformis
- Chapter 20 Lupus erythematosus
- Chapter 21 Nonspecific granular dermoepidermal junction staining

Section VI: Fibrillar basement membrane zone staining pattern

- Chapter 22 Lichen planus

Section VII: Cytoid bodies

- Chapter 23 Interface dermatitis/mucositis

Section VIII: Granular vascular staining pattern

- Chapter 24 Leukocytoclastic vasculitis
- Chapter 25 Henoch–Schönlein purpura
- Chapter 26 Nonspecific granular vascular staining

Section IX: Smooth vascular staining pattern

- Chapter 27 Porphyria cutanea tarda
- Chapter 28 Pseudoporphyria
- Chapter 29 Nonspecific smooth vascular staining
