## PART 1: HEALTHCARE FACILITY PLANNING: PAST, PRESENT, AND FUTURE

### Growth

1. Health Services Management: Recent Advances and Future Trends	3
2. The Art and Science of Medicine	14
3. The Hospital	18
4. Hospitals: The Challenge of Change	25
5. Hospital Organization and Structure	42
6. Growth of the Modern Hospital	52
7. Standards of Construction	70
8. Changing System of Health Services Concepts	83
9. Changing Concepts in the Health Facility Planning	88

### Planning

10. Regional Planning	95
– The Planning Organization Machinery	101
11. Planning Health Facilities	104
12. Renovation	109
13. The Process of Planning	111

### Emerging Approaches

14. Evidence-based Design: A New Concept that Puts the Focus on Patients	122
15. Sustainable Hospital Design	135
16. Designing Green Hospitals	146
17. Towards Total Health Care	153
18. The Patient-centred Approach	156
19. Patient-focused Hospital	157
20. Emerging Approaches in Hospital Design	166
21. Nucleus Concept	176
22. Modular Building Concept	179
23. Hospital Modernization	181
24. Cutting Construction Costs	184

### Recent Trends

25. Humanizing Healthcare Facilities	186
26. Autonomous Healthcare Facilities	187
27. Recent Trends in Hospital Architecture	188
28. Future Trends	195
29. The Hospital of Tomorrow	198

## PART 2: HOSPITAL: DESIGN AND DEVELOPMENT

### From “An” Idea to “The ” Idea

30. Hospital: From the Center of Excellence to Community Support	217
31. Fundamentals of Design	231
32. Functional Design	238

33. Profile of the Hospital Environment	247
34. Environment	251
35. Influence of Climate on Buildings	261
36. Space Programming and Functional Systems	267
37. Hospital Patient	280
38. Floors, Walls, and Installations	286
<b>Design and Construction</b>	
39. The Nursing Zone	292
40. The Clinical Zone	312
– Emergency Department	312
– Outpatient Department	319
– Operating Department	326
– Critical Care Units	347
– Multidisciplinary Intensive Care Unit	363
– Emerging Trends in Intensive Therapy Unit	370
– Acute Nursing Care Units	373
– Medical Monitoring	376
– Isolation of Patients	380
– Obstetrics Department	382
– Day Care Facilities	392
– Ambulatory Surgery Facility	394
– Hospital Standards for the Care of HIV-infected Persons	402
– Healthcare Facilities for Elderly People	408
– Special Care Department: Renal Dialysis Unit	416
– Cardiac Catheterization Laboratory	419
– Pulmonary Medicine	422
– In Vitro Fertilization Laboratory—Assisted Reproductive Technology	424
41. Mental Health Facilities	432
42. The Support Zone	443
– Physical Medicine and Rehabilitation	443
– Laboratory Planning and Layout	453
– Planning a Medical Laser Program	469
– Radiodiagnosis Department	473
– Medical Resonance Imaging	484
– Comparison of Various Imaging Techniques	490
– Positron Emission Tomography	492
– Designing a CT Scan Room	497
– Extracorporeal Shockwave Lithotripsy	501
– Radiation Oncology Department	505
– The Brachytherapy	514
– Nuclear Medicine Department	518
– Blood Transfusion Center	526
– Hospital Blood Bank	534
– Medical Informatics	538
– Medical Records Department	545
– Electronic Healthcare Record	551
– Central Sterile Service Department	560
– Dietary Services	571
– The Hospital Pharmacy	581
– Planning of Laundry Services	593
– Medical-Surgical Gases and Vacuum	599
– Libraries in Hospitals	602
43. Planning a District Hospital	618
44. Planning of Health Centers	631
45. Hospital Engineering Services	633
46. Fire Safety in Healthcare Facility	645

47. Morgue/Mortuary	651
48. Housing Facilities	653
– Research Facilities	655
49. Landscaping	657
50. Parking	658

### **PART 3: HOSPITAL ADMINISTRATION**

51. Hospital Acquired Infection	661
52. Management: A Conceptual and Experiential Approach	671
53. Staffing Pattern	692
54. Healthcare Waste Management and Ecohealth	698
55. Telemedicine	708

### **PART 4: THE ENLIGHTENMENT AND SCIENTIFIC REVOLUTION**

#### **Recent Advances and Future Trends**

56. Shaping Tomorrow's Hospitals Today	713
57. The Hospitals of the Future	734
58. Project Management	750
59. Recent Trends in Hospital Design and Construction	762
60. The Physical Environment in the Hospital	786
61. Radiation Safety in Hospitals	795
62. Outpatient Services	809
63. Emergency Department	828
64. Recent Trends in Nursing Unit	856
65. Recent Trends in ICU Planning and Designing	882
66. Cardiac Catheterization Laboratory	912
67. Planning Patient-focused Surgical Suite System (Operating Department)	936
68. Managing Biomedical Equipment	964
69. Renal Dialysis Unit	969
70. Rehabilitation Medicine	982
71. Human Resource Planning	990
72. Recent Advances and Future Trends in Quality Management	1004
73. Some Most Beautiful Hospitals in the World	1022
74. Physician Oaths	1037
<b>Glossary</b>	1039

#### **Appendices**

Appendix 1: Constitution of the Community Hospital	1049
Appendix 2: General Evaluation and Checklist for any Existing Building	1051
Appendix 3: Fire Safety in Hospitals	1053
<i>Index</i>	1057
