Preface	v
Contributors	xi
Acknowledgements	xvii

Topics

1	Abdominal and thoracic trauma	1
2	Achalasia	7
3	Acute scrotum	10
4	Anorectal malformation in females	14
5	Anorectal malformation in males	18
6	Antenatal hydronephrosis	21
7	Appendicitis	25
8	Balanitis xerotica obliterans	28
9	Biliary atresia	31
10	Bladder dysfunction	35
11	Branchial remnants	39
12	Central venous access techniques	42
13	Chest wall deformities	45
14	Child protection	48
15	Choledochal malformation	53
16	Cholelithiasis	56
17	Chronic abdominal pain	60
18	Chylothorax	63
19	Cloaca	65
20	Colonic atresia	69
21	Congenital diaphragmatic hernia	72
22	Congenital lung malformations	76
23	Consent in paediatric surgery	80

24	Constipation and faecal incontinence	83
25	Crohn's disease	89
26	Cystic hygroma	93
27	Diabetes mellitus	96
28	Disorders/Differences in sex development 1	100
29	Disorders/Differences in sex development 2	104
30	Duodenal atresia	108
31	Duplications of the urological system	111
32	Empyema	114
33	Endocrine conditions presenting to paediatric surgery	117
34	Exomphalos	121
35	Exstrophy-epispadias complex	125
36	Femoral hernia	131
37	Gastric and oesophageal foreign bodies	134
38	Gastric volvulus	137
39	Gastrointestinal bleeding	140
40	Gastro-oesophageal reflux disease	144
41	Gastroschisis	148
42	Germ cell tumours	151
43	Growth disorders	156
44	Haematological malignant disease	159
45	Haematuria	164
46	Head trauma	167
47	Hepatoblastoma	170
48	Hirschsprung disease	174
49	Hydrocele	177
50	Hyperhidrosis	180
51	Hypospadias – distal	182
52	Hypospadias – proximal	186
53	Inguinal hernia	190

54	Inhaled foreign body	193
55	Intussusception	195
56	Long segment Hirschsprung disease	199
57	Lymphadenopathy	201
58	Malrotation	204
59	Management of the wetting child	208
60	Meatal stenosis	211
61	Meckel diverticulum	213
62	Meconium ileus	215
63	Mediastinal masses	218
64	Minimal access surgery in neonates	221
65	Necrotising enterocolitis	226
66	Neuroblastoma	231
67	Oesophageal atresia and tracheo-oesophageal fistula	236
68	Oesophageal atresia – long gap	241
69	Osteosarcoma	245
70	Paediatric anaesthesia	248
71	Paediatric bariatric surgery	251
72	Paediatric breast disease	255
73	Paediatric cardiac surgery	259
74	Paediatric gynaecology	262
75	Paediatric neurosurgery	265
76	Paediatric orthopaedic surgery	268
77	Paediatric otorhinolaryngology	273
78	Paediatric plastic surgery	278
79	Paediatric transplantation	282
80	Pancreatitis	287
81	Pelviureteric junction obstruction	290
82	Perianal disease and anal laceration	294
83	Posterior urethral valves	296

84	Pyloric atresia	300
85	Pyloric stenosis	303
86	Rectal prolapse	306
87	Renal failure	308
88	Sacroccocygeal teratoma	313
89	Salivary gland lesions	317
90	Short bowel syndrome and intestinal failure	320
91	Skin lesions	325
92	Small bowel atresia	328
93	Small bowel duplications	331
94	Soft tissue tumours	334
95	Spleen disorders	337
96	Thyroid and parathyroid glands	342
97	Thyroglossal cyst	346
98	Tracheal anomalies	349
99	Ulcerative colitis	353
100	Umbilical and supraumbilical disease	356
101	Undescended testis	360
102	Urethral anomalies	363
103	Urinary tract infection	367
104	Urolithiasis	370
105	Varicocele	373
106	Vascular anomalies in paediatrics	376
107	Vesicoureteric junction obstruction	380
108	Vesicoureteral reflux	383
109	Wilms' tumour	386
	Index	389
