

Contents

SECTION 1: BASICS OF MRI

| | |
|---|-----|
| 1. Basic Principles | 3 |
| 2. T1, T2 Relaxations and Image Weighting | 9 |
| 3. k-space and Scanning Parameters | 16 |
| 4. Magnetic Resonance Instrumentation | 21 |
| 5. Sequences I: Basic Principles and Classification | 30 |
| 6. Sequences II: Accessory Techniques | 41 |
| 7. Sequences III: When to Use What Sequences | 52 |
| 8. Magnetic Resonance Imaging Artifacts | 68 |
| 9. Magnetic Resonance Imaging Safety | 79 |
| 10. Magnetic Resonance Imaging Contrast Media | 87 |
| 11. Normal Signal Intensity on Magnetic Resonance Imaging | 97 |
| 12. Principles of Interpretation: Neuroimaging | 101 |
| 13. Principles of Interpretation: Body Imaging | 111 |

SECTION 2: MRI TECHNIQUES

| | |
|---|-----|
| 14. 3 Tesla Magnetic Resonance Imaging | 123 |
| 15. Magnetic Resonance Angiography | 126 |
| 16. Diffusion Weighted Imaging | 139 |
| 17. Magnetic Resonance Imaging Perfusion | 152 |
| 18. Magnetic Resonance Spectroscopy | 162 |
| 19. Neuroimaging Magnetic Resonance Imaging Techniques | 174 |
| 20. Body Imaging Magnetic Resonance Imaging Techniques I | 180 |
| 21. Body Imaging Magnetic Resonance Imaging Techniques II | 193 |
| 22. Cardiac Magnetic Resonance Imaging Techniques | 202 |
| 23. Lung Magnetic Resonance Imaging Techniques | 211 |
| <i>Index</i> | 217 |
