1. History Taking and Clinical Examination	1
• History Taking	1
• Clinical Examination	3
• Examination of Bone and Joint Infection	6
2. Examination of an Injured Patient.....	8
• Initial Assessment	9
• History	24
• Physical Examination	24
• Investigations, Tertiary Survey, and Definitive Care	26
• Special Note	27
3. Examination of Patient with Bone and Joint Injuries	31
• History	31
• Examination	32
• Specific Conditions	34
4. Examination of Neuromuscular Disease	37
• History	37
• Examination	37
• Upper Limb	38
• Lower Limb	38
• Special Tests	41
• Special Conditions	41
5. Examination of Shoulder.....	42
• Understanding the Shoulder: The Shoulder Crane	42
• History	43
• Clinical Examination	45
• Neck Examination	62
• Neurovascular Examination	62
• Common Conditions Affecting Shoulder	62
6. Examination of Elbow.....	65
• Look	66
• Feel	68
• Move	70
• Measure	71
• Special Tests	72
• Neurovascular Examination	75
• Others	75
• Common Specific Conditions	75

7. Examination of Wrist 78

- History 78
- Clinical Examination 79
- Assessment of Instability 81
- Assessment of Dorsal Radial Wrist Pain 85
- Assessment of Ulnar Wrist Pain 89
- Assessment of Dorsal Central Wrist Pain 90
- Assessment of Palmar Ulnar Wrist Pain 91
- Palmar Radial Wrist Pain 92
- Assessment of Distal Radioulnar Joint 93
- Differential Lignocaine Injection Test 93
- Specific Conditions 93

8. Examination of Hand..... 97

- Look 98
- Feel 99
- Move 99
- Specific Conditions 100
- Examination of the Hand with Lacerations 105
- Traumatic Amputations and Microsurgery 107
- Hand Infections 108

9. Examination of Peripheral Nerves and Brachial Plexus..... 110

- Look 110
- Feel 111
- Move 112
- Neurological Examination 112

Examination of Individual Nerves 113

- Median Nerve 113
- Ulnar Nerve 115
- Radial Nerve 117
- Compression Neuropathy 118
- Suprascapular Nerve Entrapment 121
- Brachial Plexus Injury 121
- Examination of the Brachial Plexus 122
- Lower Limb Nerve Injury 124

10. Examination of Spine 125

- Clinical Red Flags in Back Pain 126
- Thoracolumbar Examination 128
- Specific Conditions 139
- Examination of the Cervical Spine 144
- Specific Conditions 147

11. Examination of Hip	150
• Presenting History	150
• Local Examination	151
• Patient Standing	152
• Supine on Couch	153
• Lateral on Couch	160
• Prone Examination	160
• Conditions Affecting Hip	161
• Sacroiliac Joint Stress Test	166
12. Examination of Knee	167
• Presenting Complaint	167
• Local Examination	169
• Special Tests to Assess Joint Stability	172
• Patellofemoral Joint Problems	176
• Special Note	179
13. Examination of Ankle and Foot	186
• Presenting Complaint	186
• Past History	188
• Family History	188
• Personal History	188
• Treatment History	188
• General Examination	188
• Local Examination	191
• Specific Conditions	206
14. Examination of Rotational Deformities in Lower Limb	217
• History	217
• Examination	217
15. Imaging Principles	219
