

- Chapter 1. Radiation Quantities and Units
- Chapter 2. Radiation Biology
- Chapter 3. Radiation Protection Standards
- Chapter 4. Radiation Hazards, Evaluation and Control
- Chapter 5. Planning a Diagnostic Radiology Facility
- Chapter 6. Quality Assurance in Diagnostic Radiology
- Chapter 7. Radiation Protection and Safety in Diagnostic Radiology
- Chapter 8. Planning a Nuclear Medicine Facility
- Chapter 9. Quality Assurance in Nuclear Medicine
- Chapter 10. Radiation Protection and Safety in Nuclear Medicine
- Chapter 11. Planning a Radiation Therapy Facility
- Chapter 12. Design and Shielding Requirements for Radiotherapy
- Chapter 13. Quality Assurance in Radiotherapy
- Chapter 14. Radiation Protection and Safety in Radiotherapy
- Chapter 15. Disposal of Radioactive Waste
- Chapter 16. Transport of Radioactive Material
- Chapter 17. Regulation for Medical Radiation Facilities
- Chapter 18. Radiation Emergencies and Medical Management
- Chapter 19. Emergency Response Plans and Preparedness
