

Contents

1. BASIC AND APPLIED SCIENCES1

Calcium Metabolism	1	Cartilage	20
Rickets	2	Cartilage Injuries and Defects	21
Osteomalacia	4	Autologous Chondrocyte Implantation (ACI)	23
Osteoporosis	5	Gait	24
Bisphosphonates (BP)	9	Blood Components	28
Denosumab	10	Hazards of Blood Transfusion	29
Parathyroid Hormone and Disorders	11	Autologous Transfusion	30
Brown Tumor	12	DVT and Pulmonary Embolism	31
Scurvy	12	Thromboprophylaxis/New Anticoagulants/ LMWH	33
Skeletal Fluorosis	14	Fat Embolism	34
Development of Skeleton – Principles and Application	15	Tourniquet	35
Collagen	18	Compartment Syndrome	36
Bone Healing	18		

2. PEDIATRIC ORTHOPEDICS 39

Proximal Femoral Focal Deficiency (PFFD)	39	Congenital Vertical Talus (CVT)	64
Perthes Disease	42	Calcaneovalgus Foot	65
DDH	45	Torticollis	66
Slipped Capital Femoral Epiphysis	51	Congenital Radio-ulnar Synostosis	67
Coxa Vara	54	Polydactyly	68
Angular Deformities of LL in Children	55	Congenital Trigger Thumb	69
Congenital Pseudoarthrosis of Tibia (CPT)	59	Limping Child	69
Tibia Vara	60	Spina Bifida	69
CTEV	62		

3. HIP..... 71

Hip Biomechanics	71	Evolution of THR	84
Approaches to Hip Joint	73	Bearing Surfaces in Total Hip Arthroplasty	85
Osteonecrosis (Hip)/AVN/Chandler's Disease	75	Tribology	86
Femoroacetabular Impingement	78	Complications of THR and Periprosthetic Hip Fractures	87
Hip Resurfacing Arthroplasty (HRA)	81	Osteoarthritis Hip	91
Femoral Neck Fracture Nonunion	82		

4. KNEE 93

Knee Arthroscopy	93	Synovial Plicae/Plica Syndrome	106
Anterior Cruciate Ligament Tear	95	Recurrent Dislocation of Patella	107
Posterior Cruciate Ligament Injuries	99	Osteoarthritis of Knee	110
Posterolateral Corner (PLC) Injury	100	High Tibial Osteotomy	112
Meniscus	102	Unicompartmental Knee Replacement	114
Discoid Meniscus	105	Total Knee Replacement	115
Meniscal Cysts	106		

5. SPINE 119

Anatomy of Vertebral Column	119	Vertebroplasty and Kyphoplasty	138
Spinal Approaches	123	Video-assisted Thoracic Surgery	140
Intervertebral Disc: Anatomy, Physiology and Prolapse	126	Minimally Invasive Spine Surgery	141
Cervical Spondylosis	127	Dural Tear	142
Spondylolysis and Spondylolisthesis	131	Somatosensory–Evoked Potentials	143
Scoliosis	133	Nerve Root Blocks/Epidural Steroids	144
Pedicle Screw	136	Spinal Fusion Methods	145
Lateral Mass Fixation for Cervical Spine	137	Role of Physiotherapy in Low Back Pain	146
		Failed Back Syndrome	147

6. SHOULDER 149

Shoulder Instability/Recurrent Shoulder Dislocation	149	Rotator Cuff Disease	155
Frozen Shoulder	154	Long Head of Biceps Brachii Rupture	157

7. FOOT AND ANKLE 159

Arches of the Foot	159	Hallux Valgus (Bunion)	165
Blood Supply of Talus	160	Retrocalcaneal Bursitis/Haglund	167
Tarsal Tunnel Syndrome	161	Post-Polio Residual Paralysis	168
Tarsal Coalition	162	Claw Toes	169
Flat Foot	164	Triple Arthrodesis	171

8. ORTHOPEDIC DISEASES 173

Osteogenesis Imperfecta	173	Duchenne Muscular Dystrophy	182
Cerebral Palsy (Static Encephalopathy)	174	Gout	184
Cleidocranial Dysostosis	179	Hemophilia	186
Achondroplasia	180	Paget's Disease (Osteitis Deformans)	188
Sprengel Deformity	181	Osgood-Schlatter Disease	190
Klippel-Feil Syndrome	182	Carpal Tunnel Syndrome	190

Tennis Elbow/Lateral Epicondylitis 192
 Dupuytren's Contracture 193
 Madelung Deformity 194
 Dequervain's Tenosynovitis 195
 Wrist Arthrodesis 197

Kienbock's Disease 198
 Thoracic Outlet Syndrome 199
 Cervical Rib 200
 Rheumatoid Arthritis 201
 Rheumatoid Hand 205

9. BONE TUMORS 207

Introduction to Bone Tumors—Classification,
 Benign vs Malignant 207
 Bone Biopsy 209
 Aneurysmal Bone Cyst 209
 Giant Cell Tumor 211
 Osteoid Osteoma 213
 Osteosarcoma 214
 Fibrous Dysplasia 216

Ewing's Sarcoma 217
 Osteochondroma 219
 Amputation vs Limb Salvage/Principles of
 Surgery in Bone Tumors 220
 Metastatic Bone Disease and Differentials 223
 Synovioma/Synovial Cell Sarcoma 225
 Muscle Biopsy 226

10. BONE AND JOINT INFECTION 227

Osteomyelitis—Acute and Chronic 227
 Types of Sequestrum 231
 Septic Arthritis 231

Tuberculosis of Hip 234
 TB Spine 236
 Psoas Abscess 241

11. TRAUMA 243

Monteggia Fracture—Dislocation 243
 Pelvis Fractures 245
 Acetabular Fractures 248
 Spinal Cord Injuries 251
 Hangman's Fracture 258
 Odontoid Fracture 259
 Canadian C-Spine Rule 260
 Morel Lavallee Lesion 260
 Scaphoid Non-union 262
 Terrible Triad of Elbow 264
 TFCC Injury 265
 Bennet and Rolando Fractures 266
 Carpal Instability 267
 Lunate Dislocation (Perilunate Dissociation) 268
 Flexor Tendon Injuries – Hand 269
 Game Keeper's Thumb 272
 Paediatric Fractures – Principles and Management 273

Lateral Condyle of Humerus Fracture –
 Paediatrics 275
 Supracondylar Fracture Humerus – Paediatrics 276
 Paediatric Diaphyseal Forearm Fractures 278
 Pediatric Neck of Femur Fractures 279
 Complications of Colles' Fracture 281
 Ankle Sprain 282
 Ankle Injuries 283
 Lisfranc Injury 285
 Talus Neck Fractures 287
 Jones Fracture/5th Metatarsal Base 288
 Tendoachilles Tendon Rupture 289
 Chest Injuries 290
 Polytrauma 294
 Gas Gangrene 296
 Dynamization of Fractures 296
 Stress Fracture 297

12. ORTHOPEDIC RADIOLOGY 299

Image Intensifier 299

MRI 300

CT Scan 303

Nuclear Medicine Scans 303

13. OTHER TOPICS 305

Bone Cement 305

Bone Bank 307

Amputation 308

Peripheral Nerve Injuries and Nerve
Conduction Studies 311

Brachial Plexus 314

Obstetric Paralysis 317

Median Nerve 318

Ulnar Nerve 320

Radial Nerve 321

Nonunion (NU) 322

LLD/Limb Lengthening/Ilizarov 326

Volkmann Ischemic Contracture 332

Chronic Regional Pain Syndrome (CRPS) 334

Heterotopic Ossification 336

Neurogenic Bladder 337

Obturator Neurectomy 339

Prosthesis 339

Jaipur Foot 340

Spinal Orthoses 341

PTB Cast 341

Traction in Orthopedics 342

Gallow's/Bryant's Traction 343

Thomas Traction Splint 343

Skull Traction 344

Bone Plates 345

External Fixator 347

Implant Removal 348

Preoperative Preparation of Patient 349

Rehabilitation of a Paraplegic Patient 349

14. RECENT ADVANCES 351

Bone Substitutes 351

Orthobiologics and BMP 353

BMP (Bone Morphogenic Protein) 353

Laminar Air Flow 354

Reamer Irrigator Aspirator 355

Fibrin Gel 356

Lasers 357

Gene Therapy 358

Short Wave Diathermy 359

Interferential Therapy 360

Negative Pressure Wound Therapy (NPWT) 361

Radio-Frequency Ablation 361

Ozone Therapy 362

Vascularized Fibula Graft 363

Intramedullary Nailing—Recent Advances 364

Recent Advances in THR 366

Viscosupplementation 366

Stem Cells 368

Bioabsorbable Implants 369

Tranexamic Acid in Orthopaedics 370

Day Care Surgery 371

Navigation and Robotics 372

INDEX 375
