

Contents

- 1. Applied Anatomy of the Female Genital Organs..... 1**
Short Answer Type Questions 1; *Short Notes:* Supports of the Uterus 2; Transformation Zone 2; Lymphatic Drainage of the Vulva 3; Lymphatic Drainage of the Cervix 4; Blood Supply of the Uterus 4; Course of Pelvic Ureter and its Surgical Importance 4; Course and Branches of Internal Iliac Artery 5; Describe the Collateral Circulation Following Internal Iliac Artery Ligation 5; Describe the Anatomy of the Anterior Abdominal Wall 5; Explain or Justify the Following Statements 6
- 2. Development of Female Genital Organs and its Congenital Anomalies 7**
Hysterosalpingogram 7–8; Ultrasonography 8; Short Answer Type Questions 9–11; Long Answer Type Questions 11–20; *Short Notes:* Development of the Vagina 20; Uterus Didelphys 20; Unicornuate Uterus 21; Bicornuate Uterus 21; Strassman Metroplasty 22; Explain or Justify/Criticize the Following Statement 23
- 3. Gynecological Examination 24**
Case Taking 24; Short Answer Type Questions 25–28; Case Taking 28; Lower Abdominal Lump/Pelvic Lump/Abdomino Pelvic Lump 28; Salient Points 28; Instruments 29–31; *Short Notes:* Leg Lifting Test 31; Shifting Dullness 31; Explain or Justify the Following Statement 31
- 4. Puberty and its Abnormalities..... 32**
Case Discussion 32; Short Answer Type Questions 34; Long Answer Type Questions 34–35; *Short Note:* Hormonal Changes during Puberty 35
- 5. Menstruation..... 37**
Short Answer Type Questions 37–40; Objective Structured Clinical Examination (OSCE) 1 40; OSCE 2 40; Long Answer Type Questions 40–42; *Short Notes:* Menstrual Cup 42; Role of Inhibin 42
- 6. Disorders of Menstruation: Abnormal Uterine Bleeding 44**
Case Taking 44; History 44; Case Discussion 1 44; Case Discussion 2 45; Case Discussion 3 45; OSCE 1 46; OSCE 2 46; Drug 46; Short Answer Type Questions 47–50; Long Answer Type Questions 50–54; *Short Notes:* Cesarean Scar Disorder (CSDi) 54; Postcoital Bleeding 55; Saline Sonohysterography or Saline Infusion Sonography 56
- 7. Abnormal Uterine Bleeding due to Nonstructural Causes (AUB-C, AUB-O, and AUB-E) (Dysfunctional Uterine Bleeding—DUB) 57**
Case Taking 57; History 57; Physical Examination 57; Case Discussion 57; OSCE 1 59; OSCE 2 60; Drug 60; Short Answer Type Questions 60–62; Long Answer Type Questions 62–65; *Short Notes:* Pathophysiology of AUB-O and AUB-E 65; Endometrial Ablation 66; LNG IUS in HMB 66
- 8. Dysmenorrhea 67**
Case Taking 67; History 67; Case Discussion 67; Short Answer Type Questions 68–69; Long Answer Type Question 69–70; *Short Notes:* Role of Prostaglandins in Dysmenorrhea 70; Diagnosis of Primary Dysmenorrhea 70; Explain or Justify the Following Statements 70

9. Premenstrual Syndrome	72
Case Discussion 72; Short Answer Type Questions 72–73; Long Answer Type Questions 73–74; <i>Short Note:</i> Premenstrual Syndrome 74; Explain or Justify the Following Statement 74	
10. Primary Amenorrhea	75
Case Taking 75; History 75; Complaint 75; Medical History 75; Family History 75; Past History 75; Physical Examination 75; General Examination 75; Pelvic Examination 75; Investigations 75; Case Discussion 1 76; Case discussion 2 76; OSCE 1 77; OSCE 2 77; OSCE 3 77; Short Answer Type Questions 78–79; Long Answer Type Question 79–81; <i>Short Notes:</i> Cryptomenorrhea 81; MRKH Syndrome 81; Turner Syndrome 82; Androgen Insensitivity Syndrome 82; Justify the Following Statement 83	
11. Secondary Amenorrhea, Hyperprolactinemia, and Premature Ovarian Insufficiency	84
Case Taking 84; History of Present Illness 84; Past Obstetric History 84; Personal History 84; Past Medical History 84; Signs 84; General Examination 84; Systemic Examination 84; Pelvic Examination 84; Investigations 85; Case Discussion 1 85; Case Discussion 2 85; Investigations 86; Drug 1 86; Drug 2 87; Short Answer Type Questions 87–88; Long Answer Type Questions 88–95; <i>Short Note:</i> Progestogen Challenge Test 95	
12. Polycystic Ovary Syndrome and Hyperandrogenism	96
Case Discussion 96; Ultrasonography 97; OSCE 97; Drug 1 98; Drug 2 99; Short Answer Type Questions 99–101; Long Answer Type Questions 101–107; Explain or Justify the Following Statement 107; <i>Short Note:</i> Modified Ferriman-Gallwey Score 108	
13. Reproductive Tract Infections and Genital Tuberculosis	109
Case Discussion 109; Hysterosalpingogram 110; OSCE 1 110; OSCE 2 111; Short Answer Type Questions 111–113; Long Answer Type Questions 113–120; <i>Short Notes:</i> Bacterial Vaginosis 120; Vaginal Candidiasis 121; Trichomonas Vaginitis 121; Syndromic Management of Genital Infections 122; Syndromic Management Protocol 122; Justify: Syndromic Approach is High Quality STI Care 123	
14. Vaginal Discharge	124
Case Discussion 124; Short Answer Type Questions 124–125; Long Answer Type Questions 125–127; <i>Short Note:</i> Defense Mechanism of Vagina 127; Explain or Justify the Following Statements 127	
15. Pruritus Vulvae and Other Vulval Lesions	128
Case Discussion 1 128; Case Discussion 2 128; Short Answer Type Questions 129–130; <i>Short Notes:</i> White Lesions of the Vulva 130; Chronic Vulval Pain 131; Colposcopy of the Vulva— Vulvoscopy 132; Condyloma Acuminata 132; Vulvodynia 133; Vulval Ulcer 133; Vulval (Vulvar) Intraepithelial Neoplasia (VIN) 134; Justify or Explain the Following Statement 135	
16. Infertility	136
Case Discussion 1 136; Case Discussion 2 136; Hysterosalpingogram 1 137; Hysterosalpingogram 2 137; Instrument 138; Drug 138; OSCE 139; Short Answer Type Questions 139–141; Long Answer Type Questions 141–156; <i>Short Notes:</i> Controlled Ovarian Hyperstimulation and IUI 156; Intracytoplasmic Sperm Injection 156; Unexplained Infertility 156; Postcoital Test 157; Ovarian Hyperstimulation Syndrome 157; Cryopreservation in ARTs 159; Sperm Retrieval Techniques in ARTs 160; Surrogacy 161; Surrogacy Act 161; Assisted Reproductive Technology Act (ART Act) 162; Uterine Transplantation 163; Ethics in ART 164; Explain or Justify the Following Statements 164	

17. Endometriosis	166
Case Discussion 1 166; Case Discussion 2 166; Specimen 167; Ultrasonography 167; Drug 168; OSCE 168; Short Answer Type Questions 169–170; Long Answer Type Questions 170–175; <i>Short Notes</i> : Chocolate Cyst (Endometrioma) of the Ovary 175; Scar Endometriosis 176; Stages/Classification of Endometriosis 176; Role of Laparoscopy in Endometriosis 178; Endometriosis Associated Malignancy (EAM) 179; Explain or Justify the Following Statements 179	
18. Adenomyosis.....	181
Case Discussion 181; Short Answer Type Questions 181–182; Long Answer Type Question 182; <i>Short Notes</i> : Adenomyoma 182; Etiology of Adenomyosis 182	
19. Chronic Pelvic Pain.....	183
Case Taking 183; Salient Features 183; Physical Examination 183; Case Discussion 183; Short Answer Type Questions 184–186; Long Answer Type Questions 186–187	
20. Uterine Leiomyoma (Fibroids) and Leiomyosarcoma	188
Case Discussion 1 188; Case Discussion 2 189; Specimen 1 189; Specimen 2 190; Instrument 190; Drug 191; Ultrasonography 192; OSCE 1 192; OSCE 2 193; Short Answer Type Questions 193–195; Long Answer Type Questions 195–203; <i>Short Notes</i> : Selective Progesterone Receptor Modulators 203; Uterine Artery Embolization 204; Carcinosarcoma 205	
21. Benign Ovarian Lesions.....	206
Case Discussion 1 206; Case Discussion 2 206; Specimen 1 207; Specimen 2 207; Ultrasonography 1 208; Ultrasonography 2 208; OSCE 208; Short Answer Type Questions 209–210; Long Answer Type Questions 210–213; <i>Short Notes</i> : Dermoid Cyst 213; Risk Malignancy Index 214; Tumor Markers 214; Borderline Ovarian Tumors 215; Explain or Justify the Following Statements 216	
22. Precancerous Lesions of Cervix: Cervical Intraepithelial Neoplasia.....	217
Case Discussion 1 217; Case Discussion 2 217; Instruments 218; OSCE 1 218; OSCE 2 219; OSCE 3 219; OSCE 4 220; OSCE 5 220; Short Answer Type Questions 220–223; Long Answer Type Questions 223–229; <i>Short Notes</i> : Pap Test 229; Colposcopy 229; Colposcopic Scoring System/Colposcopic Indexes 230; Reid's Colposcopic Index 230; Swede Score 231	
23. Cervical Cancer.....	232
Case Discussion 232; Specimen 233; Instruments 233; Short Answer Type Questions 234–235; Long Answer Type Questions 235–239; <i>Short Notes</i> : HPV Vaccine 239; Immunotherapy in Cervical Cancer 240; Cervical Cancer in Pregnancy 240	
24. Ovarian Malignancy	242
Case Discussion 242; Ultrasonography 243; Short Answer Type Questions 243–246; Long Answer Type Questions 246–258	
25. Endometrial Carcinoma and Endometrial Hyperplasia	259
Case Discussion 1 259; Case Discussion 2 259; Case Discussion 3 260; Specimen 261; Short Answer Type Questions 261–264; Long Answer Type Questions 264–272	
26. Gestational Trophoblastic Neoplasia	273
Case Discussion 273; Specimen 274; X-Ray 274; Short Answer Type Questions 274–276; Long Answer Type Questions 276–279	

27. Pelvic Organ Prolapse.....	280
Case Taking 280; Salient Points 280; Case Discussion 1 280; Case Discussion 2 281; Case Discussion 3 281; Instrument 282; Short Answer Type Questions 282–284; Long Answer Type Questions 284–294; Explain or Justify the Following Statements 294	
28. Urinary Incontinence.....	296
Case Discussion 1 296; Case Discussion 2 296; Short Answer Type Questions 297–299; Long Answer Type Questions 299–305	
29. Vesicovaginal Fistula and Rectovaginal Fistula	306
<i>Vesicovaginal Fistula</i> 306; Case Taking 306; Salient Features 306; Patient Profile 306; Physical Examination 306; Case Discussion 306; Short Answer Type Questions 307–309; <i>Rectovaginal Fistula</i> 309; Long Answer Type Questions 309–313	
30. Anal Incontinence: Old Complete Perineal Tear	314
Case Taking 314; History 314; Physical Examination 314; Case Discussion 314; Short Answer Type Questions 315–316; Long Answer Type Questions 316–318	
31. Menopause and Hormone Therapy.....	319
Case Discussion 319; Long Answer Type Questions 323–330	
32. Postmenopausal Vaginal Bleeding.....	331
Case taking 331; History 331; Examination 331; Case Discussion 1 331; Case Discussion 2 331; Case Discussion 3 332; Short Answer Type Questions 332–333; Long Answer Type Questions 333–335	
33. Contraception	336
Contraceptive 1 336; Contraceptive 2 336; Contraceptive 3 337; Contraceptive 4 339; Contraceptive 5 340; Contraceptive 6 341; Contraceptive 7 342; Contraceptive 8 344; Contraceptive 9 346; Contraceptive 10 347; Contraceptive 11 353; X-Ray 356; Ultrasonography 1 357; Ultrasonography 2 358; Short Answer Type Questions 358–359; Long Answer Type Questions 359–366	
34. Minor Gynecological Operations.....	368
Short Answer Type Questions 368; Dilatation and Curettage 368; Endometrial Aspiration 369; Hysterosalpingography 370; Cervical Biopsy 371; Conization of Cervix 372; Colposcopy 373; Vulvar Biopsy 375; Surgery for Bartholin Gland 376	
35. Major Operations in Gynecology.....	378
Preoperative Care 378; Important Surgical Procedures 382; Hysterectomy 382; Myomectomy 385; Laparoscopy 386; Hysteroscopy 389; Vulvectomy 391; Radical Hysterectomy 392; Surgery for Ovarian Cancer 394; Surgery for Repair of Anterior Vaginal Wall Prolapse 395; Surgery for Repair of Posterior Vaginal Wall Prolapse 396; Apical Suspension for Uterovaginal Prolapse through Vaginal Route 396; Ureteric Injury during Gynecological Surgery 399; Long Answer Type Questions 400–402	
<i>Index.....</i>	403
