## Section 1: The Migraines

<b>Commentary 1: Chronology of Acute Migraine Attack</b>	<b>3</b>
CASE 1: A Young Boy with Recurrent Headaches and Visual Loss	17
CASE 2: A Middle-aged Man with Headache, Visual Disturbance, and Recurrent Episodes of Confusion and Altered Sensorium	21
<b>Commentary 2: Diagnosis and Acute Treatment of Migraine: Current Trends</b>	<b>26</b>
<b>Commentary 3: Pharmacological Prophylaxis for Migraine: Current Trends</b>	<b>36</b>
<b>Commentary 4: Calcitonin Gene-related Peptide Antagonists in Migraine Treatment: To Use or Not to Use?</b>	<b>43</b>
<b>Commentary 5: Monoclonal Antibodies against Calcitonin Gene-related Peptide: For Whom to Use?</b>	<b>47</b>
CASE 3: A Doctor with Unremitting Headache	49
CASE 4: An Unusual Cause of Febrile Encephalopathy in a Migraine Patient	54
<b>Commentary 6: Nonheadache Symptoms of Migraine and Their Pathophysiology and Management</b>	<b>61</b>
<b>Commentary 7: Genetics of Familial Hemiplegic Migraine</b>	<b>74</b>
CASE 5: A Young Girl with Transient Limb Weakness	78
CASE 6: Can Hemiplegic Migraine Occur without Any Headache?	83
CASE 7: Neurology after an Airplane Flight	87
CASE 8: The Lady Who Fooled the Surgeon!	92
CASE 9: A Middle-aged Lady with Migraine with Aura and Rapidly Progressive Dementia	94
CASE 10: A Middle Aged Lady with Gait Instability and Incontinence	99

CASE 11: A Similar Case but with Something More ....	100
CASE 12: A Case of Headache and Vertigo	103
CASE 13: Another Case of Headache and Vertigo	107
CASE 14: A Devastating Episode in a Football Ground	112
<b>Commentary 8: Migraine, Stroke, and Other Related Issues</b>	<b>116</b>
CASE 15: A Young Girl with Migraine Who Lost Her Vision	122
CASE 16: A Middle-aged Lady with Recurrent Ophthalmoplegia	124

## Section 2: Migraine and Epilepsy

<b>Commentary 9: Migraine and Epilepsy</b>	<b>131</b>
CASE 17: Migraine Epilepsy Interface	146
CASE 18: Another Case of Migraine–Epilepsy Interface	148
CASE 19: More Epilepsy Migraine Interface	149
CASE 20: Yet Another Case of Headache–Epilepsy Interface	150
CASE 21: Yet Another Case of Seizure and Headache	151

## Section 3: Trigeminal Autonomic Cephalalgias

<b>Commentary 10: Clinical Assessment of Patients with Headache and Autonomic Symptoms</b>	<b>157</b>
<b>Commentary 11: Trigeminal Autonomic Cephalalgia: Pathophysiology and Treatment of Intractable Cases</b>	<b>162</b>
CASE 22: An Elderly Man with Intractable Ocular Jabs with a Red Eye and Tearing	171
CASE 23: Never Miss This Diagnosis!	179
CASE 24: A Lady with Unilateral Jabs with Tearing from Ipsilateral Eye	180
<b>Commentary 12: Pitfalls in the Diagnosis of Cluster Headaches</b>	<b>184</b>
<b>Commentary 13: Pitfalls in the Diagnosis of Hemicrania Continua</b>	<b>189</b>
CASE 25: An Elderly Man with Severe Throat Pain Shooting up to Ipsilateral Eye and Temple with ANS Features including Salivation	198
CASE 26: A Young Girl with Intractable Headache and Severe Photophobia which Changed Pattern over the Years	201

CASE 27: Young Boy with Side-locked Headache and Restlessness	207
CASE 28: Does Cluster Migraine Exist?	209
CASE 29: A Lady with Side-locked and Time-locked Headache: A Diagnostic and Therapeutic Dilemma	211
CASE 30: Yet Another Case of Hemiplegia with Severe Headache and Autonomic Features	216
CASE 31: A Neuroendocrine Problem: A Case of Secondary Cluster Headache	220
CASE 32: Traps in Trigeminal Autonomic Cephalalgias: A Doctor's Mistake!	222
CASE 33: A Man with an Intractable Abdominal Pain	224
CASE 34: A Lady with Side Shifting Headaches	226
CASE 35: A Young Man with Cluster Headaches, Sleep Disturbance, and Sulfa Drug Allergy	228

<b>Commentary 14: Trigeminal Autonomic Cephalalgias and Long-lasting Autonomic Symptoms with Associated Hemicranias: A Spectrum Disorder</b>	<b>231</b>
--	------------

## Section 4: Other Primary Headache Disorders

<b>Introduction</b>	<b>235</b>
---------------------	------------

CASE 36: A Case of Secondary Stabbing Headache	236
--	-----

<b>Commentary 15: Thunderclap Headache</b>	<b>239</b>
--	------------

CASE 37: Headache in the Shower	245
---------------------------------	-----

CASE 38: Another Case of Headache in the Shower	245
---	-----

CASE 39: Sex Headache: May be a Very Serious Matter Indeed!	248
---	-----

CASE 40: Why You Need to Do Angiography Even in CT-negative Sex Headaches as Well!	249
--	-----

CASE 41: A Very Rare Cause of Headache Related to Sexual Activity	258
---	-----

CASE 42: A Curious Case of Headache in the Shower	261
---	-----

CASE 43: A Middle-aged Lady with Bursting Headache Following Micturition	264
--	-----

CASE 44: Yet Another Case of Thunderclap Headache	266
---	-----

CASE 45: Pregnant Lady with Headache and Convulsion	269
---	-----

CASE 46: Postpartum Headache: Role of Early Imaging	275
---	-----

CASE 47: Alarm Clock Headache that Woke Her Up from Sleep Every Night	281
---	-----

CASE 48: A Lady Who had Hemicranial Headache on Coughing	283
--	-----

## Section 5: Secondary Headaches, Other Headaches and Cranial Neuralgias

<b>Commentary 16: How Not to Miss the Diagnosis of Serious Secondary Headaches</b>	<b>289</b>
CASE 49: An Elderly Man with an Intractable Headache	297
CASE 50: An Elderly Man Who Woke Up with a Headache and Visual Loss	298
CASE 51: An Elderly Man with Headache and Double Vision	299
CASE 52: A Middle-aged Man with Recurrent Headaches, Fever, Stroke-like Episodes, and an Iatrogenic Complication	306
CASE 53: A Young Lady with Intermittent Headaches, Stroke-like Episodes, and Abnormal Movements	313
CASE 54: A Middle-aged Lady with Intractable Headache	315
CASE 55: Another Lady with Intractable Headache and Similar Imaging Abnormality with a Definitive Diagnosis	317
CASE 56: Chronic Nasal Sinusitis and Pachymeningitis: Is There Any Link?	321
CASE 57: An Unusual Indomethacin-responsive Headache	326
CASE 58: A Young Lady with an Intractable Head and Face Pain	332
CASE 59: A Young Girl with an Apparently Serious Illness with Spontaneous Improvement	335
CASE 60: A Middle-aged Man with an Explosion in the Head	338
CASE 61: Another Case of Explosion in the Head	338
CASE 62: A Young Boy with Recurrent Headaches and Falls	340
CASE 63: A Young Lady with Unilateral Eye Pain and Tenderness	346
CASE 64: A Lady with a Linear Burning Sensation on the Face	347
CASE 65: Recurrent Eye/Periorbital Pain and Visual Loss: Could it have been Prevented?	350
CASE 66: An Elderly Man with Facial Twitching and Burning Tongue	352
CASE 67: An Elderly Man with Severe Left Facial Pain and a Miraculous Cure!	356
CASE 68: A Middle-aged Lady with Intractable Left Facial Pain and Double Vision	361
CASE 69: A Sinister Facial Pain	364
CASE 70: Hemicranial Pain, Facial Numbness, and Double Vision: An Unsolved Mystery	370
CASE 71: Intermittent Progressive Headache Progressing to Encephalopathy: Case Vignette-1	376
CASE 72: Intermittent Progressive Headache Progressing to Encephalopathy: Case Vignette-2	378

CASE 73: Progressive Headache with New-onset Ptosis	382
CASE 74: Altered Consciousness in a Hospitalized Patient with Subarachnoid Hemorrhage	388
CASE 75: Sudden-onset Severe Headache without Evidence of Vascular Abnormality	394
CASE 76: Sudden-onset Lower Extremity Weakness with Loss of Bladder and Bowel Control	399

## Section 6: Headache and Covid-19 Infection

<b>Commentary 17: Challenges in Headache Diagnosis in the Era of COVID-19 Pandemic</b>	<b>407</b>
CASE 77: Post-COVID-19 Headache 1	409
CASE 78: Post-COVID-19 Headache 2	411
CASE 79: Post-COVID-19 Vaccination Headache	413

## Section 7: Traps in Headache Diagnosis

CASE 80: An Elderly Man Who Woke Up with Severe Headache and Visual Loss	423
CASE 81: A Middle-aged Lady with Left Hemicranial Headache and a Red Eye	424
<b>Index</b>	<b>427</b>
