## SECTION 1: General Considerations

### 1. Anatomy for the Obstetrician Gynecologist..... 3

- Introduction 3
- External Genital Organs 3
- Female Internal Genitalia 4
- Normal Menstrual Cycle 8
- Blood Supply to the Pelvis 11
- Blood Supply to the Internal Genital Organs 13
- Lymph Nodes of Pelvis 15
- Pelvic Nerves 16
- Anatomy of the Abdominal Wall 16

### 2. Ethics in Surgery ..... 23

- Introduction 23
- Ethical Principles for Medical Research and Practice 24
- Patient Communication 26
- Psychological Preparation of the Patient for Surgery 27
- Evidence-based Medicine 28

### 3. Anesthesia and Preoperative Care ..... 29

- Introduction 29
- Preoperative Principles in Surgery 29
- General Physical Examination 33
- Systemic Examination 34
- Pelvic Examination 36
- Laboratory Investigations 39
- Preoperative Management 39
- Role of the Anesthetist 40
- Types of Anesthesia 41
- Preoperative Principles Prior to Surgery 45
- Intraoperative Care Principles 45

### 4. Postoperative Care, Surgical Asepsis, and Antibiotic Prophylaxis ..... 46

- Introduction 46
- Postoperative Care 46
- Postoperative Complications 48
- Postoperative Analgesia 52
- Summary 54

### 5. Surgical Practices: Incisions, Wound Healing, and Suture Materials ..... 55

- Introduction 55
- Types of Surgical Incisions 55
- Basics of Wound Closure and Healing 60
- Opening the Abdomen: Skin Preparation, Incision, and Hemostasis 62
- Principles of Abdominal Wall Closure 62

- Wound Complications 63
- Sutures 64
- Surgical Needles 67
- Surgical Knots 68

## SECTION 2: Operative Obstetrics

### 6. Prenatal Diagnostic Procedures ..... 73

#### Introduction 73

- Overview of Surgery 73
- Aims of Surgery 75

#### Indications 75

#### Preoperative Preparation 76

#### Surgical Steps 76

- Amniocentesis 76
- Chorionic Villus Sampling 77
- Cordocentesis 78

#### Postoperative Care 80

#### Advantages 80

#### Disadvantages 80

#### Complications 80

- Amniocentesis 80
- Chorionic Villus Sampling 81
- Cordocentesis 82

#### Discussion 82

- Amniocentesis versus Chorionic Villus Sampling 82
- Transabdominal versus Transvaginal Route of Chorionic Villus Sampling 83
- Prenatal Diagnostic Procedures in Multifetal Gestation 83

### 7. Forceps Delivery ..... 85

#### Introduction 85

- Overview of Surgery 85
- Aims of Surgery 85
- Surgical Equipment Used 85

#### Indications 89

- Maternal Indications 89
- Fetal Indications 89

#### Preoperative Preparation 90

- Prerequisites for Forceps Delivery 90

#### Surgical Steps 91

- Application of the Forceps 91

#### Postoperative Care 94

- Postdelivery Examination 94

#### Advantages 94

#### Complications 95

- Maternal Complications 95
- Injuries to Baby 95

<b>Discussion 96</b> <ul style="list-style-type: none"> <li>• Vacuum versus Forceps 96</li> <li>• Failed Forceps 96</li> </ul>	
<b>8. Vacuum Delivery..... 97</b>	
<b>Introduction 97</b> <ul style="list-style-type: none"> <li>• Overview of Surgery 97</li> <li>• Aims of Surgery 97</li> <li>• Surgical Equipment Used 97</li> </ul> <b>Indications 99</b> <ul style="list-style-type: none"> <li>• Prerequisites for Vacuum Delivery 99</li> <li>• Contraindications for the Use of Vacuum for Operative Vaginal Delivery 99</li> </ul> <b>Preoperative Preparation 99</b> <b>Surgical Steps 99</b> <ul style="list-style-type: none"> <li>• Steps of Vacuum Extraction in Case of Occipitoanterior Position 99</li> </ul> <b>Postoperative Care 104</b> <b>Advantages 104</b> <b>Disadvantages 104</b> <b>Complications 104</b> <ul style="list-style-type: none"> <li>• Neonatal Injury 105</li> </ul> <b>Discussion 106</b> <ul style="list-style-type: none"> <li>• Forceps versus Vacuum 106</li> <li>• Administration of an Episiotomy 107</li> </ul>	
<b>9. Routine Labor Room Procedures..... 108</b>	
<b>Introduction 108</b> <ul style="list-style-type: none"> <li>• Episiotomy 108</li> <li>• Induction of Labor 109</li> </ul> <b>Indications 110</b> <ul style="list-style-type: none"> <li>• Episiotomy 110</li> <li>• Induction of Labor 110</li> </ul> <b>Preoperative Preparation 110</b> <ul style="list-style-type: none"> <li>• Episiotomy 110</li> <li>• Induction of Labor 111</li> </ul> <b>Surgical Steps 111</b> <ul style="list-style-type: none"> <li>• Repair of an Episiotomy 111</li> <li>• Induction of Labor 114</li> </ul> <b>Postoperative Care 115</b> <ul style="list-style-type: none"> <li>• Care of an Episiotomy 115</li> <li>• Induction of Labor 115</li> </ul> <b>Advantages 115</b> <ul style="list-style-type: none"> <li>• Episiotomy 115</li> <li>• Induction of Labor 116</li> </ul> <b>Disadvantages 116</b> <ul style="list-style-type: none"> <li>• Induction of Labor 116</li> </ul> <b>Complications 116</b> <ul style="list-style-type: none"> <li>• Episiotomy 116</li> <li>• Induction of Labor 116</li> </ul> <b>Discussion 116</b> <ul style="list-style-type: none"> <li>• Episiotomy 116</li> <li>• Induction of Labor 117</li> </ul>	
<b>10. Cesarean Section..... 120</b>	
<b>Introduction 120</b> <ul style="list-style-type: none"> <li>• Overview of Surgery 120</li> <li>• Aims of Surgery 120</li> </ul> <b>Indications 120</b> <b>Preoperative Preparation 120</b> <b>Surgical Steps 121</b> <ul style="list-style-type: none"> <li>• Giving an Abdominal Skin Incision 121</li> <li>• Dissecting the Rectus Sheath 123</li> <li>• Opening the Peritoneum 124</li> <li>• Insertion of the Doyen's Retractor 124</li> <li>• Giving a Uterine Incision 124</li> <li>• Delivery of the Infant 125</li> </ul> <b>Postoperative Care 127</b> <ul style="list-style-type: none"> <li>• Immediate Postoperative Care 127</li> </ul> <b>Advantages 128</b> <b>Complications 128</b> <ul style="list-style-type: none"> <li>• Uterine Rupture 128</li> <li>• Infection 131</li> <li>• Trauma to the Urinary Tract 131</li> <li>• Thromboembolism 131</li> <li>• Placenta Previa and Adherent Placenta 131</li> </ul> <b>Discussion 131</b> <ul style="list-style-type: none"> <li>• Alternative Techniques for Cesarean Delivery 133</li> </ul>	
<b>11. Medical Termination of Pregnancy..... 136</b>	
<b>Introduction 136</b> <ul style="list-style-type: none"> <li>• Overview of Surgery 136</li> <li>• Aims of Surgery 136</li> <li>• Surgical Equipment Used 136</li> </ul> <b>Indications 136</b> <b>Preoperative Preparation 138</b> <b>Surgical Steps 139</b> <b>Postoperative Care 142</b> <b>Complications 142</b> <ul style="list-style-type: none"> <li>• Uterine Perforation 142</li> <li>• Infection/Septic Abortion 142</li> <li>• Incomplete Evacuation 143</li> <li>• Bleeding during and Following the Abortion 143</li> <li>• Failure of the Procedure 143</li> <li>• Hypotension 144</li> <li>• Minor Complications 144</li> <li>• Asherman's Syndrome 144</li> <li>• Cervical Lacerations/Cervical Incompetence 144</li> </ul> <b>Discussion 144</b> <ul style="list-style-type: none"> <li>• Choice between Medical and Surgical Abortion 144</li> </ul>	
<b>12. Cervical Incompetence ..... 146</b>	
<b>Introduction 146</b> <ul style="list-style-type: none"> <li>• Overview 146</li> <li>• Aims of Surgery 148</li> </ul> <b>Indications 148</b> <ul style="list-style-type: none"> <li>• Contraindications 148</li> </ul>	

<b>Preoperative Preparation</b>	<b>148</b>
<b>Surgical Steps</b>	<b>149</b>
<b>Postoperative Care</b>	<b>153</b>
<b>Disadvantages</b>	<b>153</b>
<b>Complications</b>	<b>154</b>
<b>Discussion</b>	<b>154</b>
<b>13. Surgical Interventions for Control of Postpartum Hemorrhage .....</b>	<b>155</b>
<b>Introduction</b>	<b>155</b>
• Primary Postpartum Hemorrhage	155
• Secondary Postpartum Hemorrhage	155
• Causes of Postpartum Hemorrhage	155
• Overview of Surgery	156
• Aims of Surgery	156
<b>Indications</b>	<b>156</b>
<b>Preoperative Preparation</b>	<b>156</b>
• Surgical Options if the Placenta has Delivered	158
<b>Surgical Steps</b>	<b>163</b>
• Types of Surgical Options	163
<b>Postoperative Care</b>	<b>170</b>
<b>Advantages</b>	<b>170</b>
<b>Complications</b>	<b>170</b>
<b>Discussion</b>	<b>170</b>
• Prevention	170
<b>14. Repair of Perineal Injuries.....</b>	<b>172</b>
<b>Introduction</b>	<b>172</b>
• Perineal Injury	172
• Overview of Surgery	173
• Aims of Surgery	173
<b>Indications</b>	<b>173</b>
• Repair of Vaginal Tears	173
<b>Preoperative Preparation</b>	<b>173</b>
<b>Surgical Steps</b>	<b>173</b>
• Repair of Vaginal Tears	173
• Repair of a Fourth-degree Laceration	173
• Repair of Cervical Tears	174
<b>Postoperative Care</b>	<b>175</b>
• Care of a Fourth-degree Laceration	175
<b>Complications</b>	<b>176</b>
<b>Discussion</b>	<b>176</b>
• Anatomical Considerations	176
• Risk Factors	177
• Effect of the Childbirth on the Pelvic Floor Muscles	177
<b>15. Surgical Management of Retained Placenta .....</b>	<b>178</b>
<b>Introduction</b>	<b>178</b>
• Overview of Surgery	178
• Aims of Surgery	178
<b>Indications</b>	<b>179</b>
<b>Preoperative Preparation</b>	<b>180</b>
<b>Surgical Steps</b>	<b>180</b>
• Manual Removal of Placenta	180
• Management of Morbidly Adherent Placenta	181
<b>Postoperative Care</b>	<b>183</b>
<b>Complications</b>	<b>183</b>
<b>Discussion</b>	<b>184</b>
• Anesthesia Technique	184
<b>16. Shoulder Dystocia.....</b>	<b>185</b>
<b>Introduction</b>	<b>185</b>
• Overview	185
<b>Surgical Steps</b>	<b>186</b>
• Management of Shoulder Dystocia	186
<b>Complications</b>	<b>190</b>
• Fetal and Neonatal Complications	190
• Maternal Complications	190
<b>Discussion</b>	<b>190</b>
<b>17. Obstetric Hysterectomy .....</b>	<b>192</b>
<b>Introduction</b>	<b>192</b>
• Overview of Surgery	192
• Aims of Surgery	192
<b>Indications</b>	<b>192</b>
• Obstetric Indications for Emergency Hysterectomy	192
• Indications for Hysterectomy at the Time of Cesarean Section	193
• Indications for Peripartum Hysterectomy	193
<b>Preoperative Preparation</b>	<b>193</b>
<b>Surgical Steps</b>	<b>194</b>
<b>Postoperative Care</b>	<b>197</b>
<b>Advantages</b>	<b>198</b>
<b>Disadvantages</b>	<b>198</b>
<b>Complications</b>	<b>198</b>
<b>Discussion</b>	<b>198</b>
<b>18. Ectopic Pregnancy .....</b>	<b>200</b>
<b>Introduction</b>	<b>200</b>
• Overview of Surgery	201
• Aims of Surgery	201
<b>Indications</b>	<b>203</b>
• Laparotomy	203
• Laparoscopy	204
<b>Preoperative Preparation</b>	<b>204</b>
<b>Surgical Steps</b>	<b>205</b>
• Salpingectomy	205
• Partial Salpingectomy	205
• Salpingotomy	205
• Laparoscopic Surgery	205
<b>Postoperative Care</b>	<b>206</b>
<b>Advantages</b>	<b>206</b>
• Benefits of Laparoscopic Management of Tubal Pregnancy	206
• Laparotomy	208
<b>Complications</b>	<b>208</b>
<b>Discussion</b>	<b>208</b>

- Expectant Management 208
- Medical Management (Methotrexate) 210
- Combined Medical and Surgical Therapy 210
- Type of Surgery to be Performed 211
- Management of Nontubal Ectopic Pregnancy 211

## 19. Surgery for Cancer during Pregnancy..... 213

### Introduction 213

- Overview of Surgery 213

### Indications 215

- Conization 215
- Trachelectomy 216

### Preoperative Preparation 216

### Steps of Surgery 217

- Trachelectomy 217
- Cervical Conization 217

### Postoperative Care 219

### Advantages 220

### Disadvantages 220

### Complications 221

### Discussion 221

- Management in Cases of Gestational Age at or before 16 Weeks 221
- Gestational Age of more than 16 Weeks 221
- Use of Fertility-sparing Surgical Procedures 222

## SECTION 3: Operative Gynecology

## 20. Surgery for Uterine Leiomyomas ..... 225

### Introduction 225

- The International Federation of Gynecology and Obstetrics Classification of Fibroids 226
- Overview of Surgery 226
- Aims of Surgery 226

### Indications 226

- Hysterectomy 227
- Myomectomy 227

### Preoperative Preparation 228

- Myomectomy 228
- Uterine Artery Embolization 228

### Surgical Steps 228

- Abdominal Myomectomy 228
- Laparoscopic Myomectomy 230
- Hysteroscopic Myomectomy 233
- Robotic Myomectomy 233
- Uterine Artery Embolization 235

### Postoperative Care 237

### Advantages 237

- Advantages of Laparoscopic Myomectomy 237
- Advantages of Robotic Myomectomy 237

### Disadvantages 238

### Complications 238

- Hysterectomy 238
- Myomectomy 238

- Complications of Laparoscopic Myomectomy 241
- Complications Associated with Uterine Artery Embolization 242

### Discussion 243

## 21. Surgery for Polycystic Ovarian Syndrome .... 244

### Introduction 244

- Overview of Surgery 246
- Aims of Surgery 246

### Indications 246

- Ovarian Wedge Resection 246
- Laparoscopic Ovarian Drilling 246

### Preoperative Preparation 246

### Surgical Steps 247

### Postoperative Care 247

### Advantages 249

### Disadvantages 249

### Complications 249

### Discussion 250

- Mechanism of Action of Laparoscopic Ovarian Drilling 250
- Ovulation and Pregnancy Rates with Laparoscopic Ovarian Drilling 251

## 22. Prolapse Uterus..... 253

### Introduction 253

- Evaluation of the Degree of Prolapse 254
- Overview of Surgery 256
- Aims of Surgery 257
- Principles of Surgery for Pelvic Organ Prolapse 257

### Indications 258

- Hysterectomy 258
- Anterior Colporrhaphy 259
- Posterior Colpoperineorrhaphy 259
- Manchester Operation 259
- Abdominal Sling Surgery 259
- Le Fort Colpocleisis 259

### Preoperative Preparation 259

### Surgical Steps 260

- Hysterectomy 260
- Anterior Repair 260
- Posterior Repair 260
- Manchester Repair 261
- Abdominal Sling Surgery 265
- Obliterative Procedures 266

### Postoperative Care 266

### Advantages 268

### Disadvantages 268

### Complications 268

- Complications due to Uterine Prolapse 268
- Intraoperative Complications of Anterior Colporrhaphy 268
- Complications of Le Fort Colpocleisis 268

<b>Discussion 268</b>	<b>Preoperative Preparation 309</b>
• Supports of the Uterus 268	<b>Surgical Steps 309</b>
• Muscles of the Pelvic Floor 270	• Salpingo-Ovariectomy 309
• Innovations in Surgery for Uterine Prolapse 272	• Fimbrioplasty 309
<b>23. Tubal Sterilization Procedures..... 275</b>	• Salpingostomy 310
<b>Introduction 275</b>	• Tubotubal Anastomosis 311
• Overview of Surgery 275	• Hysteroscopic Tubal Cannulation 313
• Aim of Surgery 275	<b>Postoperative Care 316</b>
<b>Indications 276</b>	<b>Advantages 316</b>
<b>Preoperative Preparation 276</b>	• Tubal Reconstructive Surgery 316
• Preoperative Counseling 276	<b>Disadvantages 316</b>
• Written and Informed Consent 276	<b>Complications 316</b>
• Confirming that the Patient is Nonpregnant 276	<b>Discussion 316</b>
<b>Surgical Steps 276</b>	<b>26. In Vitro Fertilization..... 318</b>
• Anesthesia 276	<b>Introduction 318</b>
• Surgical Approach 276	• Overview of Surgery 318
<b>Postoperative Care 283</b>	<b>Indications 318</b>
<b>Advantages 283</b>	<b>Preoperative Preparation 319</b>
<b>Complications 283</b>	<b>Surgical Steps 319</b>
<b>Discussion 285</b>	• Pretreatment Adjuvant Strategies 319
<b>24. Hysterectomy..... 287</b>	• Ovarian Stimulation for in Vitro Fertilization 320
<b>Introduction 287</b>	• Follicular Aspiration 322
• Overview of Surgery 287	• Oocyte Classification 323
• Aims of Surgery 288	• Sperm Preparation and Oocyte Insemination 323
<b>Indications 288</b>	• Embryo Culture 323
<b>Preoperative Preparation 288</b>	• Embryo Transfer 323
<b>Surgical Steps 289</b>	• Luteal Phase Support 324
• Abdominal Hysterectomy 289	<b>Postoperative Care 324</b>
• Vaginal Hysterectomy 296	• Disadvantages 325
• Minimally Invasive Technique in Hysterectomy 300	<b>Complications 325</b>
<b>Postoperative Care 303</b>	• Ovarian Hyperstimulation Syndrome 325
<b>Advantages 303</b>	• Ectopic Pregnancy 328
• Abdominal Hysterectomy 303	• Iatrogenic Multiple Pregnancy 328
• Vaginal Hysterectomy 304	• Oncogenic Risk Related to Assisted Reproductive Technology 328
• Subtotal Hysterectomy 304	<b>Discussion 329</b>
<b>Disadvantages 304</b>	• Outcome 329
• Vaginal Hysterectomy 304	• Failure of the Procedure 329
• Abdominal Hysterectomy 304	• Poor Responders to Ovarian Stimulation 329
<b>Complications 304</b>	• Other Techniques 329
<b>Discussion 304</b>	<b>27. Surgery for Endometriosis..... 331</b>
• Deciding the Route of Surgery: Abdominal versus Vaginal Hysterectomy or LAVH 304	<b>Introduction 331</b>
• Retention or Removal of Ovaries 306	• Overview of Surgery 332
<b>25. Surgery for Infertility..... 307</b>	• Aims of Surgery 335
<b>Introduction 307</b>	<b>Indications 335</b>
• Overview of Surgery 307	<b>Preoperative Preparation 336</b>
• Aims of Surgery 307	<b>Surgical Steps 336</b>
• Surgical Equipment Used 307	• Surgical Equipment Used 336
<b>Indications 308</b>	• Surgery for Endometriosis 336
• Indications for Surgery 308	<b>Postoperative Care 341</b>
• Indications for Using Hysteroscopy 308	<b>Advantages 341</b>
• Indications for Using Laparoscopy 308	<b>Complications 341</b>
	<b>Discussion 342</b>
	• Endometriosis Fertility Index 342

<b>28. Surgery for Uterine Malformations .....</b>	<b>345</b>	<b>30. Surgery for Urinary Incontinence.....</b>	<b>389</b>
<b>Introduction</b>	<b>345</b>	<b>Introduction</b>	<b>389</b>
• Overview of Surgery	345	• Overview of Surgery	390
<b>Indications</b>	<b>347</b>	• Aims of Surgery	390
• Indications for Vaginoplasty	347	<b>Indications</b>	<b>390</b>
• Indications for Metroplasty	347	<b>Preoperative Preparation</b>	<b>390</b>
<b>Preoperative Preparation</b>	<b>347</b>	<b>Surgical Steps</b>	<b>391</b>
• Müllerian Aplasia (Vaginal Agenesis)	347	<b>Postoperative Care</b>	<b>395</b>
• Metroplasty for Bicornuate Uterus	348	<b>Complications</b>	<b>395</b>
• Metroplasty for Septate Uterus	349	<b>Discussion</b>	<b>396</b>
<b>Surgical Steps</b>	<b>349</b>	<b>31. Surgery for Urogenital Fistulas.....</b>	<b>398</b>
• Vaginoplasty	349	<b>Introduction</b>	<b>398</b>
• Alternative Surgical Strategies for Vaginoplasty	355	• Etiology	398
• Metroplasty for Bicornuate Uterus	355	• Diagnosis	399
• Metroplasty for Septate Uterus	357	• Overview of Surgery	399
<b>Postoperative Care</b>	<b>359</b>	<b>Indications</b>	<b>401</b>
• Vaginoplasty	359	• Vaginal Approach	401
• Metroplasty for Bicornuate Uterus	359	• Abdominal Approach	401
• Metroplasty for Septate Uterus	359	<b>Contraindications</b>	<b>402</b>
<b>Complications</b>	<b>360</b>	• Vaginal Approach	402
• Vaginoplasty	360	• Abdominal Approach	402
• Metroplasty	360	<b>Preoperative Preparation</b>	<b>402</b>
<b>Discussion</b>	<b>360</b>	<b>Steps of Surgery</b>	<b>403</b>
<b>29. Surgery for Cancers .....</b>	<b>362</b>	• Vaginal Approach	403
<b>Introduction</b>	<b>362</b>	• Abdominal Approach	404
• Overview of Surgery	363	• Laparoscopic Approach	406
• Aims of Surgery	363	<b>Postoperative Care</b>	<b>408</b>
<b>Indications</b>	<b>363</b>	<b>Advantages</b>	<b>408</b>
<b>Preoperative Preparation</b>	<b>364</b>	• Vaginal Approach	408
• Endometrial Cancer	364	• Abdominal Approach	408
• Cervical Cancer	364	<b>Disadvantages</b>	<b>408</b>
• Ovarian Cancer	364	• Vaginal Route	408
• Vulvar Cancer	364	• Abdominal Approach	409
<b>Surgical Steps</b>	<b>364</b>	<b>Complications</b>	<b>409</b>
• Surgical Treatment for Cervical Cancer	364	<b>Discussion</b>	<b>409</b>
• Surgical Treatment for Endometrial Cancer	371	<b>32. Diagnostic and Operative Hysteroscopy .....</b>	<b>411</b>
• Surgical Treatment for Malignant Ovarian Neoplasms	375	<b>Introduction</b>	<b>411</b>
• Surgical Treatment for Vulvar Cancer	382	• Overview of Surgery	411
• Surgical Treatment of Vulvar Cancer	382	• Surgical Equipment	411
• Post-treatment Surveillance	386	<b>Indications</b>	<b>414</b>
<b>Complications</b>	<b>386</b>	• Diagnostic Indications	415
• Side Effects due to Radiotherapy	386	• Operative Indications	416
• Side Effects due to Chemotherapy	387	<b>Preoperative Preparation</b>	<b>419</b>
• Complications from Surgery	387	<b>Surgical Steps</b>	<b>419</b>
• Other Complications	387	• Diagnostic Hysteroscopy	419
• Complications Related to Radical Vulvectomy and Bilateral Inguinal Lymphadenectomy	387	• Operative Hysteroscopy	419
<b>Discussion</b>	<b>387</b>	<b>Postoperative Care</b>	<b>420</b>
		<b>Advantages</b>	<b>420</b>
		<b>Disadvantages</b>	<b>420</b>

<b>Complications</b> 420	
• Intraoperative Complications 420	
<b>Discussion</b> 422	
<b>33. Diagnostic and Operative Laparoscopy.....</b> 424	
<b>Introduction</b> 424	
• Overview 424	
• Surgical Equipment 424	
<b>Indications</b> 429	
• Diagnostic Laparoscopy 429	
• Therapeutic Laparoscopy 432	
<b>Preoperative Preparation</b> 432	
• Investigative Studies 432	
• Informed Consent 433	
• Preoperative Medications 433	
• Preoperative Gastrointestinal Preparation 433	
• Other Preoperative Considerations 433	
• Anesthesia 434	
<b>Surgical Steps</b> 434	
• Open Laparoscopy 434	
• Expanding-Access Cannulas 434	
• Veress Needle Insertion Followed by a Primary Trocar Insertion 434	
<b>Postoperative Care</b> 436	
<b>Advantages</b> 436	
<b>Disadvantages</b> 436	
<b>Complications</b> 437	
• Gas Embolism 437	
• Retroperitoneal Vessel Injury 437	
• Reducing Laparoscopic-related Complications 438	
<b>Discussion</b> 438	
<b>34. Recent Advances in Gynecological Surgery .....</b> 440	
<b>Introduction</b> 440	
• Overview of Surgery 440	
• Surgical Equipment 441	
• Aims of Surgery 444	
<b>Indications</b> 444	
• Robotic Surgery 444	
• Single Port Laparoscopic Surgery 446	
<b>Preoperative Preparation</b> 446	
<b>Surgical Steps</b> 446	
• Robotic Surgery 448	
• Laparoendoscopic Single-site Surgery 449	
<b>Postoperative Care</b> 450	
<b>Advantages</b> 450	
• Robotic Surgery 450	
• Laparoendoscopic Single-site Surgery 451	
<b>Complications</b> 451	
• Robotic Surgery 451	
• Laparoendoscopic Single-site Surgery 451	
<b>Discussion</b> 451	
• Robotic Surgery 451	
• Laparoendoscopic Single-site Surgery 455
