|---|-----------|
| 1. Doppler Basics for a Gynecologist..... | 1 |
| • What is Doppler? 1 | |
| • Color Doppler 2 | |
| • Power Doppler 2 | |
| • Spectral Doppler 4 | |
| • Color/Power Doppler Settings 5 | |
| • Settings for Pulsed Wave Doppler 8 | |
| • Setting the Speed of the Trace 12 | |
| • Artifacts 12 | |
| • Safety of Doppler 13 | |
| 2. Endometrial Lesions and Doppler..... | 15 |
| • Inflammatory Lesions 16 | |
| • Abnormal Response to Hormones 21 | |
| • Endometrial Metaplasia 23 | |
| • Neoplastic Lesions 24 | |
| 3. Doppler in Myometrial Lesions..... | 33 |
| • Scan Routes And Modalities 33 | |
| • Assessment of the Uterus on Transvaginal Scan 33 | |
| • Measurements 35 | |
| • Doppler Studies 41 | |
| • Adenomyosis 44 | |
| • Fibroids 50 | |
| • Disseminated Peritoneal Leiomyomatosis 54 | |
| • Benign Metastasizing Leiomyoma 54 | |
| • Enhanced Myometrial Vascularity 55 | |
| 4. Role of Doppler in Diagnosing Gynecological Malignancies..... | 59 |
| • Angiogenesis in Malignancies 59 | |
| • Uterine Malignancies 60 | |
| 5. Doppler for Differential Diagnosis of Adnexal Lesions..... | 75 |
| • Ovary 75 | |
| • Ovarian Neoplasms 88 | |
| 6. Sonoendocrinology..... | 95 |
| • Androgen 95 | |
| • Anti-Müllerian Hormone 97 | |
| • Follicle-stimulating Hormone 97 | |
| • Luteinizing Hormone 98 | |
| • Estrogen 100 | |
| • Progesterone 100 | |

7. Ultrasound and a Treatment Cycle 112

- Baseline Scan 112
- Preovulatory Scan 116
- Midluteal Phase 122

8. Doppler in Normal and Abnormal Early Pregnancy..... 127

- Pregnancies with Abnormal Prognosis 131
- Trophoblastic Diseases 145

9. Doppler in Fetal Echocardiography 151

- Equipment Settings 151
- M Mode Study 151
- Four-chamber View 152
- Left Ventricular Outflow Tract 155
- Right Ventricular Outflow Tract 156
- Three-vessel View 156
- Short Axis View 157
- Arch/Longitudinal Views 157
- Fetal Circulation 159
- Abnormalities Seen on Three-vessel View: Role of Doppler 174

10. Role of Doppler in Fetal Growth Restriction and Pregnancy-induced Hypertension 178

- Uteroplacental Vascular Changes and Effect on Fetal Metabolism 181
- Technique of Doppler Assessment 184
- Silent Period of Increased Resistance 185
- Early-onset Fetal Growth Restriction 192
- Late-onset Fetal Growth Restriction 192
- Obstetric Management Depending on Doppler Findings 193

11. Fetal Anemia: Role of Doppler 198

- Pathophysiology of Signs and Symptoms of Fetal Anemia 199
- Diagnosis 199
- B-Mode Signs of Fetal Anemia 199
- Role of Doppler in Fetal Anemia 200
- Limitations of Middle Cerebral Artery Peak Systolic Volume as a Predictor of Fetal Anemia 203

12. Doppler for Diagnosis of Congenital Fetal Abnormalities 205

- Doppler for Diagnosis of Structural Abnormalities 205
